Please be as specific as possible to help us understand your views.

What do you want the Council to consider? What specific action you think the Council should take?  
Why should this be done?

There is a shortage of water for our personal use and dairy farming - stop the spread of dairy farming and the increase in human population

Address the energy problem realistically by legislating (creating a by-law) against wasting energy in ways such as leaving computers running overnight and office lights on overnight. Stop human population's growth so no-more energy is needed.

Stop the expansion of hydro electricity. See the above for how, and the reason why is because many come here for the beautiful wilderness, and a dam ruins the rivers for their scenery and recreational aspects.

Our attitude towards our landscape needs to be altered so we do not hand it over to developers who then build all over the reasons we live here. Stop the spread of people so we can continue to enjoy what we have, and not have our quality of life lowered by crowds, litter and an increase in crime, all of which come with higher populations.

You may add more pages if you wish. Thank you for your submission.
