**Date:**

16 April 2009

**Your Submission:**

I support the CHCH Biodiversity Partnership.

I support action on the CHCH Biodiversity Strategy. In particular, protection of the Canterbury Plains dry grassland areas around McLeans Island.

I support the Erfurt Declaration on urban biodiversity

I support formal recognition of the Perimeter Walkway

I wish CHCH to become a member of LAB (Local Action for Biodiversity)

I want Christchurch to be a New Zealand city! ie I want to see our own native locally sourced plants growing in our public areas. In particular, Halswell Quarry.

I would like to see our native birds (bellbirds, tui, wood pigeons) return to the city. The way to achieve this is to plant large areas of locally sourced native trees in our parks providing linkages from the Port Hills to Halswell Quarry, Wigram Basin, Riccarton Bush, The Gardens and Central City.
