Submission Re: CHARISIA Bay Water and Wastewater Scheme

CHARISIA Bay is no longer a weekend or summer holiday destination. It is a growing community. There is a limit to the amount of effluent that the ground can absorb. Septic Tank systems work well in sparsely populated areas. The residents of CHARISIA Bay live on a slope. All waste travels downhill to the harbour. The soil is principally clay which is not known for absorption capabilities. If one takes a walk one can detect over worked septic tanks by the odour emanating. At times not pleasant. Turning a blind eye to this problem will not see it go away. Previously CHARISIA Bay residents were assured that the water/wastewater scheme was going to commence this year. Now it has been placed on the back burner. I believe that the council in its capacity to ensure that everyone living in CHARISIA Bay has access to safe drinking water and a sanitary living environment. Please place the CHARISIA Bay Water + Wastewater scheme back on track to commence this year -
