Submission Form

Please be as specific as possible to help us understand your views.

What do you want the Council to consider? What specific action you think the Council should take?
Why should this be done?

My wife and I are long term Charteris Bay residents. The water and sewer supply was made available to Church Bay residents some time ago, and the new Black Point sub-division in Charteris Bay... with no present residents is connected to this.

There are an increasing number of homes in Charteris Bay being lived in full time.... We are one of those. There is very little top-soil in our area, and septic tank drainage has to go somewhere. It cannot permeate the clay and rock, and must find its way to the sea in due course... low winter evaporation sees to this.

Lyttelton Harbour water quality varies from place to place, but could always be much better if no sewerage systems, or septic tank run-offs fed into it.

There have been very serious promises from the Council to bring water and sewer ~~serv~~ services to Charteris Bay.

I have a real concern that giardia will one day enter our rainwater holdings. The Otter Bradley Park stream (the only stream in Charteris Bay) is subject to infection, and birds drinking there do land on our roof.

My plea is that the Council will honour its past promises at the promised dates.
