**Date:**

15 April 2009

**Your Submission:**

In the Town Hall alterations, I would like double doors at the Kilmore Street entrance to prevent the fearful cold draught that often occurs in the winter. The double door alteration at the Victoria Square side has been most successful.

In the auditorium I would like double doors at the entrances to the areas at the foyer sides of the stalls and gallery to prevent sound from the foyer intruding on quiet moments in orchestral concerts. This could include all the doors but most important are those doors nearest the foyer at the east. The James Hay Theatre has had such doors since first built and they are very effective at noise insulation.
