**Your Submission:**

The council should begin streaming council meetings online via the CCC website, just like parliament do on the Parliament Website and Parliament TV.

This would allow for greater transparency for the council and people of Christchurch City, it would not cost a lot to be done and even better if these were archived for a week or two.

Christchurch City Council should consider this as it will also assist with bringing the council into the 21st Century, I am unaware of any other council streaming meetings at this time, so let's be the first and show why Christchurch is such a great place and why we believe in our Council and Councillors

Thank you
