bob.wilkinson@bluestartaxis.org.nz

Email Address for copy of submission:

bob.wilkinson@bluestartaxis.org.nz

Date:

16 April 2009

Your Submission:

This submission is made in support of the Vbase LTCCP Submission regarding the development of Key Canterbury Facilities.

Blue Star Taxis are heavily committed to the inbound tourism market in Canterbury. The majority of our 350+ drivers depend on tourism numbers to support their individual businesses. Much of the tourism taxi business is used to support the services offered to local Cantabrians.

Blue Star Taxis are also involved, through the Christchurch Convention Centre Bureau, with inbound business through Conventions and Conferences.

Whilst Christchurch and the Canterbury region offers much to attract convention organisers the facilities available for larger groups are at times limited or non existent.

The submission from Vbase goes along way to meeting these proven needs.

Acceptance of the submission and the increased visitor numbers will directly impact Blue Star Taxis in that the income needed to raise standards in the fleet will become available and this will result in both safer taxis and also taxis that are more economical as a public transport option.
