Your Submission: I Agree fully with the councils decision not to fund the "Additional crash protection systems â?" rural roads" These systems often only protect car drivers. They can cause unneccisary additional harm and sometimes death to cyclists, motorcyclists & scooter riders in the event of an accident. they also block a possible escape route from an accident for a cyclist.

WELL DONE !!

PS If this is to be included in the final LTCCP I would like to be informed - to allow me to make a submission in favour of it being dropped
