Date:

13 April 2009

Your Submission:

I support the plans to have an alternative road straight from the Lyttelton road tunnel onto Port land so that heavy container traffic/ Port traffic does not travel through Lyttelton's streets, notably Norwich Quay, Simeon Quay and Godley Quay. I support funding for this to be available in the long term plan.

I support all plans to enhance cycle ways and to improve the public transport system and to make the transport more sustainable. I support funding for this to be available in the long term plan.

I support all plans to enhance and protect our historic and heritage buildings in Christchurch and Banks Peninsula. I support funding for this to be available in the longterm plan.

I support all plans to protect and enhance our natural heritage of the Port hills and Banks Peninsula and for funding to be made available in the long term plan for the creation and maintenance of nature reserves.
