**Email Address for copy of submission:**

**Date:**

14 April 2009

**Your Submission:**

Please consider the provision of a fourth artificial surface for hockey to alleviate the extreme pressures created by the increasing numbers of hockey players in the region

At least one million in finance is required to assist in the creation of another surface in the form of principle and / or a loan

This is keeping the youth of the city involved in sport and consequently not involved in crime, etc
