Submission form

My submission to the council concerns the needs of the recreational boaties and sporting sailors of Canterbury. To protect and shelter the powerboats and yachts from the south-westerlies and north-westerlies that are part and parcel of New Zealand's changeable weather patterns. There is a very real need for breakwater extending from the public slip across to the yacht club.

As the second biggest metropolitan area in the country the condition of the public slip and lack of a proper breakwater are a disgrace and embarrassment when viewed as they often are, by boaties and sailors from other regions who even in relatively small centres have better facilities.

Large sums of money have been spent over many years on sports of different codes but boating in its many forms has been neglected.

It is very disappointing to read the council will spend \$37.2 million on various venues in the future but no mention of funds for recreation in the Lyttelton marine area. Once the facilities are in place there is minimal maintenance. No landscaping, no lawns to mow etc, that must be the bugbear of other facilities such as parks and pools.
