Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

i believe that if more turfs are available there will
be an influx of better players & officials that will
make hockey in christchurch better, also with the fact
that invercargill can support 2 water based turfs with
only a limited number of teams, i think that this is very
short sighted on the councils behalf.

Please continue on reverse side if further space is required.

Thank you for making this submission.
