Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

Hockey is a growing sport + in ^{light of} the current focus of
govt./communities encouraging kids / young people to be
active + fitter. This is a good opportunity to provide
infrastructure to meet important needs. The fact that
current fields are being used to capacity indicates
the enthusiasm for the sport.

Please continue on reverse side if further space is required.

Thank you for making this submission.
