Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

The number of turf provided is insufficient for the number of young people wanting to play - in particular Junior school age children. There should be artificial provided in all areas of Auckland sufficient to allow snow & water codes to function all year. Currently practice time out-of-school hours is greatly curtailed because of the lack of turf space.

Please continue on reverse side if further space is required.

Thank you for making this submission.
