Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

With the increase in people playing sport there is a ~~(dispute)~~ great need for more turf fields for practice & playing competition games. We need to encourage children & keep them interested so therefore increase facilities to keep up with demand which at present has not been done.

Please continue on reverse side if further space is required.

Thank you for making this submission.
