Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

1) Artificial turf has numerous benefits for the game of hockey. They allow the ball to be moved cleanly and effectively. They allow play and games during inclement weather. At times when natural playing fields are sodden and games cannot be played. 2) The council should make provision in its budget for artificial turf fields.

3) Why - enormous benefits in child and young people being able to play hockey. Fitness teamwork.

Please continue on reverse side if further space is required.

Striving to achieve. Avoid disappointment of not being able to play if natural fields are wet.

Thank you for making this submission.

being able to play if natural fields are wet.
