Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

To help develop Canterbury hockey to the
highest standard possible, this cannot be achieved
with grass fields. We need to encourage the
younger generations to play sports and in recent
years hockey's popularity has grown considerably,
increasing the need for good quality grounds to play
on. The artificial turf means there is minimal
cancellations for bad weather.

Please continue on reverse side if further space is required.

Thank you for making this submission.
