Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

As a hockey coach it is frustrating that there is insufficient  
turf time available to train + develop hockey players, and the  
sport is struggling to hold players as a result of this. Canterbury  
has a proud history of achievement at national level in hockey,  
and has provided many talented players at international level -  
without adequate facilities this is going to suffer.

The Council needs to provide 2 additional fields in the  
next 3 years to prevent the sport from going backwards.

Provision of adequate sport and recreation facilities is the  
council's job and hockey should not be excluded.

Please continue on reverse side if further space is required.

Thank you for making this submission.
