Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

For the benefit and development of hockey
in Canterbury & NZ in general. The
lack of fields caps the number of
players able to participate and also
the tournament opportunities.
The addition of turf in the Christchurch
region will be more cost effective
long term.

Please continue on reverse side if further space is required.

Thank you for making this submission.
