Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

Existing Number of artificial fields limits the number of players due to constraints on non-work hours available <sup>training</sup> for players. Also makes scheduling adequate practices difficult so skill development is being hindered under current scenario. Only 3 artificial turfs also limits tournament size.

At least one new water turf should be constructed within the next 3 years, ~~at the same site~~ from a players viewpoint this would be best at either the Memorial or Point turfs.

Council already owns land at these sites for recreation so fits in with City Plan.

Please continue on reverse side if further space is required.

Thank you for making this submission.
