Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

Hockey is a growing sport - 30% increase 2002.  
Turf is the recognised surface for hockey throughout  
the world and we need to have all our players  
having the opportunity to play and practise on  
artificial turf. At the moment players at the top  
level might only get 1 hour of practise time per week  
on the turf and that time is usually shared with  
several teams.  
Artificial turfs freed up land for other sports such as  
soccer.

Please continue on reverse side if further space is required.

Thank you for making this submission.
