Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

With two children playing hockey it is extremely disappointing to hear that the provision of hockey is not seen as important. Children are having to play on grass for school hockey which does not encourage the development of numbers or skill. There are countless games cancelled on grass which is incredibly disappointing & discouraging for children.

Living in the southern area of Christchurch I am also extremely disappointed that there are no adequate pitches and ~~to~~ we travel to Porritt or Nunwood at least 5x a week. Sport is important. Hockey is important.

Please continue on reverse side if further space is required.

Thank you for making this submission.

The council needs to recognise this a support improvement in services. Porritt pitch time is always at a premium. Help!
