Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

Given the current need
for additional practice surfaces,
and the future need considering
the growth of the game, Christchurch
desperately requires one if
not two new playing surfaces.

As it stands numerous teams from
all clubs across all grades don't have
suitable time and places to practice on
which will have a huge impact on the development
of the game, an issue that needs
immediate attention.

Please continue on reverse side if further space is required.

Thank you for making this submission.
