Please be as specific as possible to help Council understand your views.

Why do you want the Council to consider the provision of additional artificial fields? What specific action you think the Council should take? Why should this be done?

With limited turf available many teams have to play on grass and miss a large percentage of their games due to the weather. If we truly want to give the community a chance to excel in hockey we need the facilities to enable them to do so. ~~The~~ Existing turf is overloaded and new turf facilities would be filled immediately. I think there is an immediate need for 2 new turfs.

Please continue on reverse side if further space is required.

Thank you for making this submission.
