To the Christchurch City Council,  
I am writing with regard to  
the end building of the block of  
shops on Acheson Ave. The  
building and the outside grassed  
area need a lot of attention.

Things to deal with include  
long grass, an area that is  
getting various stuff dumped  
in it. The state of the building  
is not very safe especially  
around the back where a  
door has been forced open.

Local young children use this  
area to play and explore.

This worries me as I am  
concerned for the safety of  
these children. I am not a

P48D

resident of the Shirley area.

But I come to this area  
twice a week to attend a  
course. I know some children  
who live in this area and  
do not want to see anyone  
get hurt. Yours faithfully  
Steven flutey.
