

Submission Form

PLEASE READ BEFORE COMPLETING YOUR SUBMISSION

The public consultation period is from Tuesday 10 March 2009 to Thursday 16 April 2009.

It will help us if you clearly:

- state the issue you want the Council to consider;
- state what specific action you think the Council should take, and
- state why that should be done.
- type or use black ink for your submission.

Please note: We are legally required to make all written or electronic submissions available to the public and to Councillors, including the name and address of the submitter. In making submissions available to the public, the submissions will be posted electronically on the Council's website. Information will be available to the public subject to the provisions of the Local Government Official Information and Meetings Act 1987. If you consider there to be compelling reasons why your contact details and/or submission should be kept confidential, you should contact the Council Support Team, telephone 941 8999.

Submission Form

Please be as specific as possible to help us understand your views.

What do you want the Council to consider? What specific action you think the Council should take?
Why should this be done?

- ① - Parking precincts on the outskirts of the City
for people to park their cars & be able to catch buses from these precincts into the city.
- The Council should look at what areas would be suitable for these parking precincts, if land is available. Bus services may have to be realigned to enable people to get into the city from these parking areas.
 - This should be done to encourage people to take public transport into the city & not congest the city with cars.
(Note - this type of system where you park and leave your car on the outskirts of the city & catch public transport into the city works well in other countries, i.e. Singapore)
- ② - Introduce a system where cars coming into the city with one person in it pays a penalty
- It requires a monitoring system set ^{up} around the area of the city that restricts vehicles ^{into} either ^{overhead} cameras and/or decoders fitted to vehicles (something similar to what London city has introduced & Singapore has had for some time)
 - keep traffic congestion down in the central city & encourage people to use public transport.
