Your Submission:	<p>Name = Deborah Dyer Phone = 0272709171 Email = dkd26@paradise.net.nz Address = 18 Monowai Crescent North New Brighton Christchurch 8083</p> <p>Message: A newsletter arrived in our mail box, asking for our views on long term council plans, for me it is easier to send it through this way, and they are as follows:-</p> <ul style="list-style-type: none"> *Rates need to be frozen, as household are now on their bottom line and can not afford increased bills. * All and every government or council employee to have a wage freeze, top earner over \$100,00 (one hundred thousand) should have a 10% price cut, money going back into the kitty. *Provide Boy Racers with a race track, crushing their cars is irresponsible, open woodford glen or have a quarter mile strip somewhere, gold coin entry, more thoughts can easily be put forth if you ask them what they want, instead of condemning them all. *All rate paying residents are provided a discount admission card, for when attending all rate paid places, eg AMI, Westpac centre, it would increase patronage and more sales inside. *A stop to all new cars being provided to council members, they should go 50/50 to reduce the excess cost of their flash cars, that fall back upon the rate payer. If paid half each, it would certainly cut down the style of cars chosen. *Reduce the amount of internet user's to those employed at the city council offices, to those who have to have it, or make internet computer rooms to reduce the amount of time wasted by some council workers that sit playing instead of working. *Have more satellite web meetings rather than flying on planes costing us the rate payer again. *To bring more shoppers into town, advertise "Parking Free" days in the city, those parking meters are very expensive when taking a small trip into the city. *Provide BUS only (wider) lanes in town, provide turn lights for buses only as they run a lot of red lights and have caused many accidents. <p>This is just a start of the many thoughts I have had, to ways the council can help the rate payer, and it would also improve your failing status, as the next lot of people who will be voting, will be those boy racers.</p> <p>They currently allow mates to drive. The mates get stopped by police, some have a license, others don't care, they get yet another fine and or court day.</p>

The courts do not frighten them at all. And they feel the police look at them ALL in the same ugly box. Has anyone really sat down with these youths and asked them what they want, or have the so called adults decided tough love needs to be in place, but its to late for tough love, as parents are not allowed to be tough on them, so why would they listen to the police or council members.

Well I've had my bleet. I hope some of what I have written helps to improve anything even if its a little.

Regards
Deborah
