Please be as specific as possible to help us understand your views.

What do you want the Council to consider? What specific action you think the Council should take?  
Why should this be done?

I would like the council to consider lifting the walkway along the beach to the height of the stone wall's along the coast from North Beach to New Brighton ramp, then from the pier ramp to St. Brighton. The sand walkway is already there. It could be wood or concrete stilts like the ramp. The council could give permission for this to take place as there are posts already in place.

Recreation and the environment are the reasons this should be done allowing people in wheelchairs, prams, children on bikes to enjoy our beautiful coastline environment. People would walk to Brighton less cars on the road, business would improve. People buy in Brighton and walk back, look around the world where they have put these walkways in, how it's lifted social depressed areas up. We all know about tsunamis, but we also know about earthquakes here in NZ and live with them. The walkway would take time to develop and would tie in with the pools in New Brighton that are being talked about. What a vision for the future. In this summary there nothing for New Brighton.

You may add more pages if you wish. Thank you for your submission.
