

# Submission Form

Please be as specific as possible to help us understand your views.

What do you want the Council to consider? What specific action you think the Council should take?  
Why should this be done?

Increase funding for cycleways, encourage more use of public transport. Saves fuel, less pollution, healthy exercise

Increase funding for low-cost housing - City Housing does a great job providing social housing for elderly & low-income families

Make provision for swimming pools in south/east areas - these suburbs have fewer opportunities for sport & recreation. Pools should be available for children's swimming lessons within walking or cycling distance of homes.

Reduce water usage, encourage rainwater collection

Make grant of \$16.7 m to Canterbury Museum for re-development & increase annual operating levies

Rethink plans for new Transport Interchange - study overseas terminals.  
Set up infrastructure charitable trust.

Convention Centre - spending \$44.7m on expansion should be deferred - not a priority in recession

Do not extend tram route - the current loop is fine for tourists but too expensive & slow for locals

Do not spend \$1 m on test cricket facilities at Hagley Oval. This public space was set apart by pioneer forefathers to be available without charge - not for commercial enterprises
