**Your Submission:**

We would like the Council to consider realigning a portion of Governors Bay Teddington Road. The realignment sought would start near the point where Allandale Lane intersects with Governors Bay Teddington Road , straightening the road and removing several low radius bends and reducing the length of the road by approximately 180m.

The potential alignment would create travel time and vehicle operating cost savings and could be expected to reduce accident costs on this section of the road. The realignment would also improve the ability of any new property access to provide appropriate sight distance along the road.
