Your Submission:

Raising the car parking in the central city at this time will mark the death of the central city at a time when many businesses in the city centre are having a very serious problem surviving as are we.

If you raise this parking charge I hope you will take responsibility for my 13 staff loosing their livelihood.

We are competing with malls , who you gave planning permission for , who have free parking.

Use your heads and reduce the charges so we can compete on a level playing field .
