### PLEASE READ BEFORE COMPLETING YOUR SUBMISSION

The public consultation period is from Tuesday 10 March 2009 to Thursday 16 April 2009.

It will help us if you clearly:

- state the issue you want the Council to consider;
- state what specific action you think the Council should take, and
- state why that should be done.
- type or use black ink for your submission.

Please note: We are legally required to make all written or electronic submissions available to the public and to Councillors, including the name and address of the submitter. In making submissions available to the public, the submissions will be posted electronically on the Council's website. Information will be available to the public subject to the provisions of the Local Government Official Information and Meetings Act 1987. If you consider there to be compelling reasons why your contact details and/or submission should be kept confidential, you should contact the Council Support Team, telephone 941 8999.

What do you want the Council to consider? What specific action you think the Council should take?  
Why should this be done?

1/ I want the Council to consider the implications of the increased silt building up the Styx river bed from the Meeblads Rd. to Brookland part of the river. This has resulted in the river overflowing the banks comparable to when we have heavy rain such as in 1992.

This part of the Styx river is silted and with the proposed increased high tides and increased stormwater from the present subdivisions the Styx river in the lower reaches needs to have a deeper swifter flow.

2/ I would like the Council to dredge the silt out of the river as was done in 1976 and previously by the Drainage Board.

I would like the wastewater to be culminated in the river until there is adequate flow and. Alternatively for the Council to investigate the possibility of putting the proposed raising bank in the lower reaches of the Styx which could then be banked high to protect the people of Brooklands from the flooding in the Styx lower reaches which will occur if nothing is done.

3/ To protect people in the lower reaches from

What do you want the Council to consider? What specific action you think the Council should take?  
Why should this be done?

1/ SAFER Siting of COMMUNICATION TOWERS -  
Radio towers, cellphone towers - should be  
sited where people are not exposed to  
dangerous emissions as is occurring at the moment.

2/. Examining the evidence of substantial research  
which demonstrates the health and wellbeing of  
people and the environment is currently being  
adversely affected at great cost to our economy.

3/. To protect people, the environment, and  
our economy. Many countries in the world  
are currently addressing the safer siting of  
towers and antennas and recognizing the  
Standard of Exposure we are currently  
exposed to is not safe.
