Your Submission:	<p>I want to make a submission regarding the outsourcing of the qe2 preschool. I would like the council to continue running this preschool. It was the most accomodating preschool for me when I had my first child Max. I could drop him off there for 2 hours when he was 8 months old and have a swim at the pools as I needed some sort of support in my community - I have no family here in Christchurch. This preschool was wonderful because it had casual hours and hours available to people who needed to use the gym facilities. I needed some time out, some time to myself to re charge and the preschool was a god sent. It also offers the parents more casual hours - such as 3 hours a day etc which I love because I dont want to have my son at preschool for full days. he only attens one full day a week, the other days are part time.</p> <p>It doesnt run on profit like alot of private preschools which is another concern to me, which sometimes means unqualified staff, and money making owners.I am a kindergarten teacher and I am aware of this.</p> <p>It worries me that the quality will diminish.</p> <p>My name is Erin Marks and I live at 12 Foresters cres in parklands (forest park estate).</p> <p>Thank you</p>
