

**The Malvern Hills Protection Society Inc
C/-Rosalie Snoyink, 6 Homebush Road Glentunnel**

This is a submission to the CCC Draft LTCCP by the Malvern Hills Protection Society Inc.

The Malvern Hill Protection Society (Society) wishes to raise a number of matters through the CCC LTCCP process in respect of current and potential funding considerations associated with the council's role as a co settlor of the Central Plains Water Trust.

The Society is seeking reassurance from the Council that no further funding will be made available by either the Council, CCHL, CDC , Orion and or any current or future trust and or companies controlled by the Council.

The Society seeks reassurance that the Council will not support the endorsement of any future third party loan and including matters such as negative pledges that they may be required to approve in their role as co-settlers.

The Society believes it is appropriate for the Council, as a co-settlor of the CPWT, in anticipation that CPWT may be contemplating a possible appeal following the release of the commissioners decisions from the reconvened May 11 2009 hearing, confirms that it will not approve any request from CPWT to appeal should one be sought.

The Society wishes to address the Council hearings of the LTCCP where it will expand further on the above matters.
