What do you want the Council to consider? What specific action you think the Council should take? Why should this be done?

I, the above, wish the Council to retain the historic piece of land at the old Edgeware Pool site at 43a

Edgeware Road. I would like this land to be retained for community use as originally intended.

Further details... 'Urban sprawl' in the form of Property development (Public or private) and commercial enterprise seem to be eating up available green space within the community. The retreatment and centralisation of council services are isolating the people whom it should be serving and leaving the family unit more isolated. Selling off this land to private interests and diminishing the number of community focal points (e.g. was the location of a community pool) will only serve to restrict the ability for families to nurture their children & "bring them up" to be strong, independent, healthy, and caring members of the community.
