I believe this land is community land, I think that there should be a pool on the site. At the very least I believe this land should be retained for a community purpose and not be sold by the council. This land was gifted to the community and the council now have no right to sell the land. Lastly it was a criminal act that the council perpetrated in the pool and legally could be seen as willful damage. I believe the council does not have the communities best interests at heart and are not listening to the community. Wake up!!
