

## Submission form

### PLEASE READ BEFORE COMPLETING YOUR SUBMISSION

The public consultation period is from Tuesday 10 March 2009 to Thursday 16 April 2009.

It will help us if you clearly:

- state the issue you want the Council to consider;
- state what specific action you think the Council should take, and
- state why that should be done.
- type or use black ink for your submission.

Please note: We are legally required to make all written or electronic submissions available to the public and to Councillors, including the name and address of the submitter. In making submissions available to the public, the submissions will be posted electronically on the Council's website. Information will be available to the public subject to the provisions of the Local Government Official Information and Meetings Act 1987. If you consider there to be compelling reasons why your contact details and/or submission should be kept confidential, you should contact the Council Support Team, telephone 941 8999.

## Submission form

Please be as specific as possible to help us understand your views.

What do you want the Council to consider? What specific action do you think the Council should take?

Why should this be done?

As a resident of Poplar Lane, I oppose the route of the tram down our lane. I feel the lane is too narrow with the cars coming close to the buildings. We have approximately 100 people in apartments down the lane (encouraged by the CCC for inner-city living I might add) and I fear the noise and vibrations would be excessive. Also I think the merchants would suffer both during construction and usually after completion. I see tourists hesitate to enter Cathedral Junction when they see the tracks and it is obvious from the empty shops there that businesses have not been successful. Foot traffic is vital to the future of Poplar Lane.

I would prefer the route to continue down High St. and have a stop at High + Juam when a commentary about Hitchfield lanes could encourage tourists to visit there without actually going down the lanes. Also many of us have cars in garages down the lane which would interfere with the tram.

Thank you
