Please be as specific as possible to help us understand your views.

What do you want the Council to consider? What specific action you think the Council should take?  
Why should this be done?

About the Central City tram extension proposal, I want the Council to consider carefully. Because I recognise the extension of the tram railway has already started on City Mall and Colombo St. I wonder why the Council decided to start the construction of the rail way even if the ~~extension~~ extension is still "proposal" or "plan". You have already started to use money and change the city. Please consider well about the matter. If you didn't make extension real, what's happen on the "just rail way" ??

I think the Council should take the action to complete the plan of the tram extension.

Why should this be done?? Because the Council already started. I am happy to support the plan as a Christchurch resident.
