It will help us if in your submission you clearly state your opinion on the proposed route and describe/outline any ideas/issues you may have.

The CCBA has asked it's members for their thoughts on the tram extention and received full support for the proposed tram extention and it's route. The only question we have been asked is when will it be up and running. We also asked businesses in our management area who may be affected by the proposed tram route to sign off their support for the tram extention. All are in full support.

The CCBA board are strong supporters of the tram extention and we would like to congratulate council on this proposed initiative. We see the tram extention as an important phase in the city mall upgrade and a tool for bringing more city visitors into the prime retail shopping district. This is particularly important as the city businesses rely heavily on the tourist trade and the financial stability of our city centre is essential for the continued health of Christchurch and Canterbury.
