**Date:**

14 April 2009

**Your Submission:**

The Heritage Tramways Trust wishes to express the Trustees support for the proposed extension of the city tourist tramway route as proposed in the LTCCP. The existing tramway has reached iconic status appearing in many different media world wide promoting our city.

The expanded route providing an opportunity to link the current arts and heritage precinct with the central city redevelopment areas around the High Street area is a very positive move to encourage visitors to the city to see more of our marvellous city. We hope this will see them stay longer and spend more to support our business community and the wider Christchurch population.

It is pleasing to see the majority of the route in lighter trafficked streets and through City Mall avoiding conflict with motorists, allowing the visitors to have an unhurried opportunity to see the sights of the inner city.

We request that the council maintains the iconic status that the Tramway has developed by encouraging the operators to use heritage Christchurch and South Island tramcars.
