Your Submission:

I support the extension of the tramway as outlined in the proposal. In fact I would like consideration be given to extending it further down Manchester Street to Tuam Street then to High Street and then back to the Square. This would then take it closer to the Polytech, the Lichfield Lanes and the new urban winery. Also as the heritage trams are not low floor I would like consideration be given to having a few of the stops having raised platforms to enable the elderly, handicapped etc to have easy access. The tramway has the potential to be the bones of an inner city tramway system appealing to the commuter as well as the tourist as has been done in San Francisco. By increasing it incrementally it would spread the cost as well as minimising the disruption
