Your Submission: I am concerned about possible extension on tram routes need increase traffic safety as well as it would be time consuming for other traffic esppecially buses and free shuttle buses affecting colombo street from and to the bus exchange.

Other concerned is city mall need to install safety fences due children and teenagers are often around in city mall area as well bicyles too.

Other thing is stateboards are common use by teenagers should banned in city mall when tram routes is established for safety reason.
